hands for
longer

500ml e

Anti-Bacterial Hand Sanitiser

Kills 99.999% of bacteria

INSTRUCTIONS

Spray sufficient product into the palm of one hand from an atomiser spray bottle. (2-3 Sprays)

Rub in thoroughly between fingers and by wringing hands together, as if you are washing them as normal.

Continue this process for at least 10 seconds to ensure full coverage of the hands and include wrists.

If you feel parts have not sufficiently been covered, spray more into palm and repeat the process.

Anti-Bacterial Hand Sanitiser contains:
Cinnamal Aldehyde, Deionised water, NaOH,
Organic acids, Salts, Surfactant
