

Highlights of 2024 to Inspire Your 2025

Dental Practice
Success Built-in

CASE STUDY SPOTLIGHT

New Lavender House

We delivered this comprehensive, 3-surgery fit-out, designing a sleek, efficient space centred on outstanding patient care.

Success Stories in Practice Transformation

See how we have helped practices like yours transform with innovative designs and equipment solutions. These case studies highlight real improvements in efficiency, aesthetics and patient satisfaction.

Dental Lounge Eltham

Transformed a commercial space into an ultra-modern dental practice with advanced equipment, harmonising aesthetics with functionality.

Dover Priory Dental Practice

Showcasing a dental practice expansion through a residential flat conversion, blending high-performance technology with aesthetic design.

The Old Bank Squat Practice

Transformation of a Grade II listed building into a state-of-the-art squat practice, merging heritage with cutting-edge technology in Dulwich Village.

I liked how swiftly the projects were done. Everything was managed, everything was timed and everything was coordinated. And every day we saw something happening. It was very exciting.

Dr Marisa Harvey New Lavender House

CASE STUDY SPOTLIGHT

78 MPR

Advanced dental tech supply and installation for holistic, patient-centred care, enhancing treatment efficiency and comfort in a state-of-the-art setting.

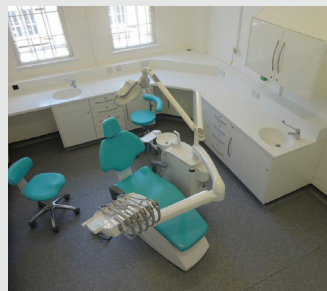

BDP Dental

Detailed surgery refurbishment at BDP Dental Bromley, featuring Belmont Eurus S8 E, hidden sockets, custom cable management and ceiling-fitted cabinetry.

Sky Dental

New squat practice with custom layout, Belmont Voyager chairs and seamless collaboration with Excel Contractors for a modern patient-focused clinic.

Service Advisor

Dedicated to providing exceptional customer support and maintenance solutions.

Graeme Gilbert
Equipment Engineer

Skilled in installations and technical support for optimal performance.

Georgia Rice
Office Manager

Over 14 years of healthcare experience, specialising in HR and compliance.

THE RIGHT EQUIPMENT

Choosing the Ideal Dental Chair

Selecting the right dental chair isn't just about functionality—it's a vital investment in patient comfort, operational efficiency and your practice's overall image.

Here's what to consider:

Patient comfort

Look for ergonomic support and flexible adjustments to ensure each visit is comfortable for your patients.

Practice efficiency

A seamless workflow relies on tailored delivery systems and tool placement, ensuring everything is within reach, reducing interruptions and keeping your team focused.

Aesthetics and brand image

The right chair complements your practice's ambience, reinforcing a professional and welcoming environment.

Reliability and durability

Investing in quality means your chair will serve reliably for years, reducing maintenance costs over time.

Discover how a well-chosen dental chair can enhance patient satisfaction and team performance!

REMOTE SUPPORT

Expert Help When You Need It

Our free remote support service is here to keep your practice running smoothly with rapid diagnostics, convenient service hours and cost-effective solutions.

Here's how our support can make a difference:

Immediate diagnostics

Send us a video or photos of your issue, and our expert team will begin diagnosing it right away—no need to wait for an on-site visit.

Responsive service hours

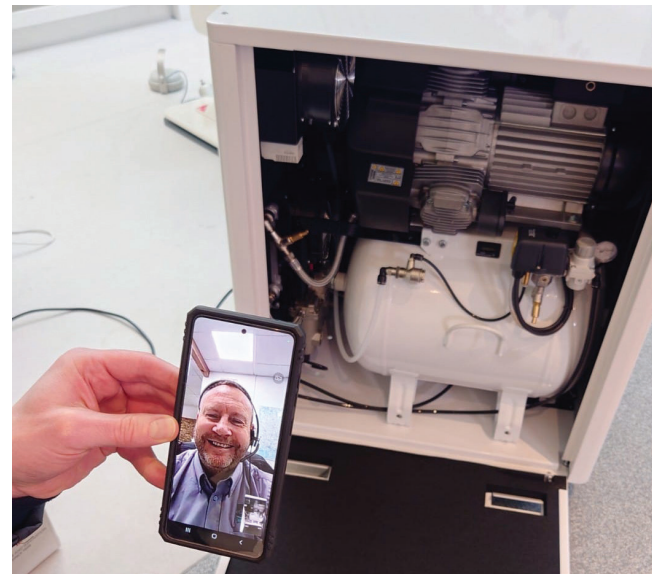

If an issue occurs outside of regular hours, leave a message with our support team. We'll prioritise your request and resolve it first thing the next business day.

Cost efficiency

Only pay for on-site visits when absolutely necessary. With our remote support, most issues are resolved remotely, saving you both time and call-out fees.

Personalised service

Get one-to-one support from our team, ensuring prompt, tailored assistance for your practice's unique needs.
